

THE LGBTQ+ INDEX 2024:

MEASURING GIVING TO LGBTQ+ ORGANIZATIONS

The LGBTQ+ Index is the only comprehensive index of charitable organizations in the U.S. that serve LGBTQ+ causes and communities. The second annual LGBTQ+ Index shows a decade of growth amid ongoing challenges for these organizations and can help donors, nonprofit leaders, policymakers, and scholars address equity issues in philanthropy.

Charitable giving to LGBTQ+ organizations has more than doubled over the past decade.

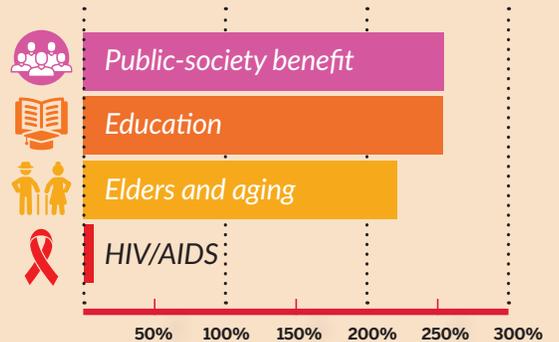

This growth varied across different types of LGBTQ+ organizations.

Less than **\$1** out of every **\$500** donated goes to support LGBTQ+ organizations.

Growth for selected LGBTQ+ subsectors, 2012-2021

- LGBTQ+ **public-society benefit** (such as grant-making organizations), **education**, and **elders and aging** organizations saw remarkable growth.
- LGBTQ+ **HIV/AIDS organizations** saw the lowest growth.

Diverging growth trends have led to an **expanding community** of LGBTQ+ organizations focused on a **broader range of issues** than a decade ago.

LGBTQ+ organizations saw a **76% increase in assets from 2019-2021**.

However, this growth was largely concentrated in the largest organizations.
